Important Safety Information

Avoid Hearing Damage:

WARNING: DO NOT USE EARPHONES AT HIGH VOLUME, permanent and irreparable hearing loss may occur. Set the volume to a safe level. Be aware that you can adapt over time to a higher volume of sound that may sound normal, but can be damaging to your hearing.

If you experience ringing in your ears or muffled speech, stop listening and have your hearing checked. The louder the volume, the less time is required before hearing damage may occur.

Suggestions to protect your hearing:

- Do not use the earphones at high volume
- Avoid turning up the volume to block noisy surroundings
- Turn the volume down if you cannot hear people speaking to you

DO NOT USE WHILE DRIVING

Use of earphones while operating a vehicle or while engaging in any activity that requires your attention is not recommended and is illegal in some jurisdictions. Check and obey the applicable laws and regulations on the use of earphones while operating a vehicle in the areas where you drive or ride.

Skin irritation:

Earphones can lead to ear infections if not properly cleaned. Clean the earphones frequently with an antiseptic. If problems occur, consult a physician.

Avoid electrostatic shock:

If the air is very dry, usage of earphones may build up static electricity and a small electrostatic discharge from the headphones may occur. To minimize the risk of an electrostatic discharge, do not use earphones in extremely dry environments.
